Wiring Accessories
Residual current devices

New residual current devices

Jussi and IMPRESSIVO® series of residual current devices have been renewed. The new version is equipped with screwless connection terminals instead of old conductors. Also, the design has changed. Sockets are slimmer and more similar to a standard electrical outlet. Technical values are the same as in previous version, but are easier to install thanks to the changed structure. Residual current devices can be connected to the ”normal” socket outlets, which are then also residual current protected. Cover plates are available separately.

EAN (new)	Type (new)	EAN (old)	Type (old)	Description
7612271472283	3120EUC-84	6418677335044	3120EUCKS-84	Socket outlet with integrated residual current device Impressivo
7612271473808	3150UC-84.1	6418677335051	3150UC-84	Residual current device Impressivo
7612271473822	3120EUC-214	6410032661225	3120EUCKS-214	Socket outlet with integrated residual current device Jussi
7612271473846	3150UC-214.1	6410032661232	3150UC-214	Residual current device Jussi
7612271473860	3120EUG-44.2	6418677307591	3120EUGKS-44.2	Socket outlet with integrated residual current device Jussi IP44, surface
7612271473884	3120EUG-44	6410032661454	3120EUGKS-44	Socket outlet with integrated residual current device Jussi IP44, flush mounting
